LEXINGTON, Ky., June 4.—"We owe more to the Post-Dispatch than can be expressed in words of praise or resolutions of

thanks," said Senator Blackburn.

The Democratic State Convention had just barned "Cap'n Jo" for President of the United States and was hurrying through to adjournment. The Senator had gained the greatest triumph of his brilliant career. In

adjournment. The Senator had gained the greatest triumph of his brilliant career. In a side room of the stage of the Convention Auditorium he was surrounded by enthusiastic friends showering congratulations upon him. He turned from them to tell the Post-Dispatch representative what he thought of the Post-Dispatch.

"Bay to Col. Jenes for me," continued Senator Blackburn, "that without his masterful add the party would not have been wrenched from the clutches of the monsy kings, and if their control would have continued another year the Democracy would have been wrecked.

"The Post-Dispatch took up the advocacy of the cause just at a time to give the movement force and direction, it kept it up in the face of the most vicient opposition imaginable, and soon attracted national intention to itself and the cause it so 'earnestly and ably' espoused. It energized the movement in the West and Southwest; fanned the smouldering sentiment of bimetallism into a flame that leaped across the Mississippl and spread over Illinois, Indiana, Ohio and Kentucky. Now that the victory is ours, I believe we should award praine te whom it is due.

"We have kept an accurate record of all expenditures," said Dr. Boyd, "and the exact amount can be ascertained by going over the books. I have not had time to examine them yet, and this estimate may not be exactly correct. In all probability the figure will be increased by the orders issued for goods, which have not yet been presented for payment."

A total of, almost \$200,000 had been placed at the command of the Executive Committee Thursday evening. A large amount will remain in the relief fund Saturday evening, according to the estimate furnished by Dr. Boyd. This residue will be used to continue the work of relief at the sub-stations as leng as worthy applicants present themselves, and to aid families whose pride or ignorance has resulted in their remaining in want. It will also be used in tiding families over until they can help themselves.

What some of the applicants have refused, others have taken stated in clothing donated is foolish. The character of the families who are making the donations is sufficient safe-guard against that.

"The matter of issuing orders on retail merchants is within the discretion of the chairmen of sub-committees," consinued Dr. Boyd. "It is being done at many of the stations. In some cases the Chairmen have been obliged to furnish sufferers with matters so hat do not answer all requirements, but mainly because they could procure no others.

Dr. Boyd was accompanied in his tour of the sub-stations by Mr. Vrooman, in charge of headquarters at the Merchants' Exchange. Upon their return they reported everything in splendid shape, with no friction whatever and the work of relief moving like clock-work.

Of the 1.50 families in the Soulard Station District, probably not more than 1,000 have been provided for in any manner.

The remainder belong to one of three classes: (1.) Those who do not read the newapapers. (2.) Those who have found shelter with friends and are waiting until the rush is over. (3.) Those who are too proud to let their wants be known.

"How are these people to be reached?" was the question propounded to Mr. Bauer by a Post-Dispatch reporter.

"By individual investigation; by a house to house canvass," was the prompt reply.

"We have an investigating committee consisting of ladies experienced in practical charity work, and they are already engaged in this work.

"More than 100 families who had never applied for as much as a loaf of bread have already been discovered. The work is done questly, and when the ladies report the needs of any particular family the articles are delivered at the house without delay.

"It is our intention to continue this kind of work until every oxclone-stricken family in this district shall have been located and provided for.

"With this end in view, we have not been stingy with the goods we have in store. They are here to be given away, and when a man comes here we try to give him enough clothing for himself and family, so that they will not have to stay in bed on wash day.

PROVIDENT ASSOCIATION.

Description of the Work of This Organized Charity. The Provident Association has three separate bureaus of relief, all under the direct

The Provident Association has three separate bureaus of relief, all under the direct supervision of Rev. Thomas M. Finney. The main depot is the association's office, at 1117 Lopust street, where aid of all kinds is given. At 1803 Lafayette avenue clothing is distributed, while from the branch station, at 1755 South Eighteenth street, nothing but provisions is being issued.

A Post-Dispatch reporter visited all three of these stations and the result of his visit was very satisfying as to the quality and quantity of the aid. The only thing to be complained of was the quality of some of the clothing which was being received at the Locust street office for distribution.

In too many cases this was in bad condition generally and could be of no use to any one except for rags. Mrs. Louis McCall. Mrs. Dr. Fisher, Mrs. H. S. Atterbury, Mrs. W. C. Stevens, Mrs. I. W. Morton and Miss G. W. Kimball were all very busy in giving out the supplies, but they were all unanimous in their displeasure at such thought-leasures among people.

Miss Kimball acted as spokewoman for the other ladies and said: "Everything we are giving out from here is good, very good, and I believe that every one we fit out gets as good quality as they have been activating out from here is good, very good, and I believe that every one we fit out gets as good quality as they have been activations which are soarcely fit to put in a respectable rag bag. The worst of these we throw away entirely and keep the best of them in a separate and distinct pile to which we give every one access if they wish dish rags or such things.

"For the most part, I find that the clothing we have arranged for distribution is externelly good and, what is more, If we cannot it out an applicant satisfactorily with what we have on hand we buy new things. Just come with me and Fill show you every high."

With that Miss Kimball took the reporter into every department over which the women are in charge. In one room were piled new cotton top mattresses of very good quality to the numb

Clothes Contributed. Observation of the work done at the St. Observation of the work done at the St. Vincent de Paul relief headquarters reveals a too close adhesion to the methods employed in relieving chronic indigency. This is admitted by Joseph T. Donovan, President of the Upper Council of the St. Vincent de Paul Society, and the directing genius of the depot at Sixth street and Chouteau avenue. tvenue.
The distribution of cast-off clothes is also
t cause for adverse criticism which Mr.
Donovan admits, but which, he says, he
tas remedied by purchasing a stock of new
litches.

Mr. Donovan, in an interview as to the manner of procedure at the Sixth and Chouteau avenue depot, disclosed his own ideas as to how storm sufferers should be aided, and he told why his plans are not being carried out.

Mrs. P. J. Toomey, a leading

came so disgusted that I remained away. Wednesday.

"There were shoes offered to honest men who never begged in their lives that must have been thrown away by the owners the day before the storm. I have in mind one man who had an order for a complete outfit of clothes. On entering the supply room he said he only wanted a pair of shoes, as he expected to go to work soon, but when he saw what he had to choose from he turned away.

saw what he had to choose from he turned away.

"The garments which the applicants are offered are sometimes worse than the ones they have on. I know of friends who live near me in the West End who made separate bundles of their old clothes. The inferior articles were sent to the depots east of Ninth street because it was said the naturally peor were not accustomed to anything better, while the bundle of fairly good clothes was sent to the Union Club depot for sufferers of a higher social order.

"Simply because we have been dependent upon gifts of second-hand clothes to supply applicants we have not had the variety essential for proper aid. We have been deficient especially in children's clothes. This defect gave rise to the practice of issuing supplementary cards. Fersons who could not get from the supply room what they had orders for, were given a card which entitled them to return later and see whother the stock had received gifts of the articles wanted.

"Inferior as is the quality of the clothes." other the stock had received girts of articles wanted. Inferior as is the quality of the clothes tributed, there has been a meagerness played which betokened a short-sighted w of the work in hand. I do not desire to appear as a serious it finder, for the work being done is the cleat that mortals can de to their feless, but I say that the clothes, especially underwear, shoes, stockings and boys its, should be new, and the bedding should better than I have seen at the distribut-

riven a new home with a month's rent paid. He should receive bedseat and bedding, a wash stand, a table and a few chairs. He should also be advanced a small sum of money to pay for knives, and all the minor accessories of the kitchen and table.

"Finally he should be supplied with provisions to lest him for several washs, or, until he can get a new start.

"The trouble I have with our visitors is that they are disposed to be too close in their relief work, because they are business men, set in their ways, and accustomed to doling out aid among people who are poor and needy every winter, but I think that the average storm sufferer should receive more permanent assistance.

"Try as hard as you can, you are bound to be imposed upon by some when you begin to give money. For instance, I heard of a woman who was said to have lost her sewing machine, her only means of support. I advanced her \$20 in order that she might make part payment on a new machine. I was told later that she was a fraud. Again, I found a man who wanted a set of carpenter's tools to repair his house. I gave him the money for the tools, and I believe I did the beat thing possible in his case.

"It is difficult to discriminate between applicants, and hard to abandon the old and ofdinary methods and ideas of giving aid."

Mr. Moses Fraley, Chairman of the Rellief Committee, in charge of the Third

been donated, as if the could be of any benealt to persons who lost their ward-robes.

Dr. Messing thought that visitors should have greater freedom in giving out cash and in determining the quality of new clothes and furniture distributed.

"I have in mind," said Dr. Messing, "a physician whose invalid wife was injured in the storm. They lost everything and he has been obliged to give up his practice to wait on his wife. I had no alternative but to offer him the old-clothes and the cheap furniture that form our stock. I discovered a case of a family having a vix acre plot. Only their summer house was saved, but I could not give them an order for lumber. That had to come from the general office. I think that we should have the right to use our discretion and to act in instances of that kind.

"We have paid out about 10,000 at this station and we should have pald out more."

Mrs. Messing thought that visitors should have pald out more."

Mrs. Messing thought that the mattresses which were delivered to sufferers were of a fair quality. She had not heard any who received them complain. She and the other workers have made house to house cannot be that there are not 130 men in St. Louis with the city's prosperity at heart and enough of charity in their composition who has been one of the most active movers, in stating the plan, said the appropriate in the storm district convinces me the storm district convinces me the storm district convinces me that sale placed in the same that the plan of the plan of the plan of the same that the effort to raise this fund will fail. If we could have subscriptions from 120-00 of our wealthy men we could raise \$300,000 at once. This could be done by 30 subscriptions of \$5,000, 40 Rev. Fr. Huber of St. Vincent's Church, who has been seeking out sufferers for the Soulard street headquarters, said he did not think the wholesale grocers were being imposed upon. If anything, they were too liberal. He said he thought that the sufferers in the territory between Park and Lafayette avenues, Ninth street and the river, have been well provided for, but that there are many deserving persons on McNulty street, Vail place and other out-of-the-way streets near Lafayette Park.

shoes, etc., and a fund of ax,000 in cash has been placed at the disposal of this committee.

Each school in the storm district is made a distributing point, and all requisitions made by the principals of the schools are honored at headquarters. Whenever an application for assistance is made a teacher at once visits the house of the applicant, and a careful investigation reveals the needs. The teacher reports to the principal, and he files a requisition for what is needed. Many necessary articles are on hand at headquarters, but if the order can not be filled from the stock new goods are purchased.

Aside from affording relief to those who apply for it, the teachers are instructed to visit the home of each pupil expolled at their school and see if ald is not needed. In many instances these people have lost everything, but are unwilling to apply for add.

A Scheme to Put the Chinese Army Under Russian Control. Under Russian Control.

LONDON, June 5.—A special dispatch from Shanghai says that in consequence of the indignities to which German officers have been subjected recently by the Chinese soldiers they were detailed to train, culminating in the murder of one of the Germans by the bodyguard of the Viceroy of Nankin, many of these officers have left Nankin. German warships have arrived there and have deminded a heavy indemnity for the attacks made by the Chinese upon the German officers. These attacks, according to the special dispatch, are believed to be a part of a scheme to drive out the Germans and place the Chinese army under Russian control.

The man who can swallow this egg story can take them with safety in any style. It comes from East St. Louis and is vouched for by the usual "reliable authority."

On Summit avenue, in the vicinity of a stephens' Hotel, resides a family named Kehoe. Their home was not injured to any extent by the cyclone and after the worst of the storm was over Mrs. Kehoe ventured into the back yard. To her surprise she found a half dozen chicken eggs in a box at the foot of the back stairway. The hen fruit had been blown a distance of two blocks from the barn of Henry Ortgier, and not one of the eggs was as much as cracked.

In order to see what effect the storm George W. Sharp has ventured into the

George W. Sharp has ventured into the sea of matrimony and evidently did not like it, as he waded out almost as soon as he got his feet wet.

He was married on April 29 last to Miss Clara Green, who lived with her parents, Rev. Mr. and Mrs. Green, at 1713A Goode avenue. The wedding was no sudden freak as he had been devoting himself to her for nearly a year and a half and pretty much monopolized her attention during that time. Mrs. Green was in poor health in the spring and wanted to go to Colorado to be with relatives while Rev. Green had business interests which demanded his attention out of the city.

This would have left Clara alone and without the consolation of seeing her betrothed, as her conscientious scruples would not permit of it during the absence of her parents.

They had intended to be married in the fall, but concluded to anticipate slightly, so they had the knot tied by Rev. Jones of the Goode Avenue Church. The only witnesses were the mother and father of the bride, who did the magnanimous thing by giving to the couple all of the household furniture.

EMINENT TESTIMONY.

All went merrily for about a week. Then Sharp became ill and was unable to leave his bed. His wife was untiring in her nursing, but he was dissatisfied and continually expressed a wish that he was at home, meaning his father's house at 364 Finney avenue. His illness was nothing more serious than neuralgis of the head, but it served to bring out the petulancy of his nature. When he was up and around the house again he complained bitterly because his relatives did not come to see him and said he felt as though he had been entirely shut out from the old family circle.

his relatives did not come to see him and said he felt as though he had been entirely shut out from the old family circle.

Finally on May 22 he packed his clothes and went back to his father's house, leaving his wife of less than a month without money and means of support.

Mrs. Jharp and her father were at home when a Post-Dispatch reporter called.

Mrs. Sharp said: "The only way I can account for the actions of my husband is that he is like a little boy who goes over into the yard of a neighbor to play, but gets tired soon and goes home again. It was not his handsome features that won me, but it was his polite and gentlemanly manner to me and to my mother and father. It seemed as though he could not do enough for them, often going out of his way to do more than an own son would have done.

"For a year and a half he took at least seven meals a week with us, never missing a Sunday evening, and we were glad to have him, as he said at his home there was no love apparent between the members of the family, whereas with us he could

"Finally, on the 23d of last month, he met me at the top of the stairs and said just these words: Clara, I haven't any hard feelings against you, but I am nob the man for you. I overestimated myself. I deceved you and your people. I am not capable financially, mentally or physically to support you or to be a husband to you or any woman, let her be rich or poor. So I leave you, because it is best for you. You, in losing me, will lose nothing, while I lose the true love of a wife that any man would be proud to support. And I would like and be made happy to see you married to the wealthiest man in St. Louis, for I am not fit so be your husband."

NEW FILTER PLANT.

Commissioner Holman Has an Idaz and Introduces an Ordinance,

Water Commissioner Holman at Friday's meeting of the Board of Public Improvea filter plant which differs materially from the one submitted by Mr. Heckel of the City Council Thursday evening.

the one submitted by Mr. Heckel of the City Council Thursday evening.

The ordinance provides that:

"The Board of Public Improvements shall construct and erect at the Chain of Rocks a plant, with all necessary pumps, boilers, buildings, machinery and appurtenances for filtering the water supply of the city of St. Louis.

"The plant when completed shall have a capacity of 100,000,000 gallons in twenty-four hours. The designs for the plant shall be predicated upon the use in the settling basins of sulphate of alumina of potash alum as a coagulant and the covering of the reservoirs in which the filtered water is stored.

"The filter plant shall be built in installments from time to time in accordance with plans to be approved by the Board of Public Improvements."

The amount to be set aside for the work is not specified.

Mr. Hoiman said after the ordinance had been referred to the proper committee, that the measure was the result of eight or ten years close attention to water works operations.

He says that the work of establishing a filter plant for St. Louis is of such magnitude that no corporation of individuals could afford to take hold of it. The reason for this is that the work is necessarily to be experimental, involving the expenditure of hundreds of thousands of dollars. The plan of establishing a city filter plant was tried several years ago in New Orleans. The result was the city became involved in litigation with the filter company, which exhausted its revenues in experiments and became bankrupt.

Under the above ordinance, Mr. Holman argues, the city would be relieved of such entanglements and the work, while it would take several years to perfect, would in the end be perfected and be the sole property of the city.

A DELICATE HINT.

Public men are so frequently manufacture that I hestiate to criticise their expressions as contained in interviews. Col Prather is reported as recently saying:

"Mr. Shewalter had better study up a little political history before he talks about turning anyone out. He will find, if he looks the matter up and exercises a little horse sense, that he is not a delegate until he has been recognized as such by the convention."

vention."

The overweening desire of Col. Prather to hold on to an office when his own views are not in accord with those of the people he was elected to represent, while at the same time he seems so utterly incapable, in his official capacity, of subordinating his individual opinion to those of his constituents, accounts for his own lack of the "horse sense" he usually displays, and causes him to take a position, the grotesqueness of which is discernible to everybody but him-Very slight acquaintance with legal pre-

dent and the exercise of a little dispassion-ate judgment would have shown the Colone that the right to an office is derived from an election. The delegates from this and other States derive their authority from the sovereign will of the Democrats of the State, expressed in their conventions, and their right to act as such is not derived from any National Convention or anyone else. If their right to seats were contested by any-body it would be the duty of the National Committee to pass upon the prima facie case and of the convention to determine the mere question as to which set of delegates were elected; but the delegates admitted would derive their authority from the ele tion itself. But no one questions the election of the delegates from this State, not their right to exercise all of the powers be longing to the office.

Again, the delegates from other States can have no greater rights than those from Missouri. It follows that if we are not delegates until recognized by the convention neither are they, so that, according to Col Prather's "horse sense," the right to ex-ercise an office does not exist, unless recognized by others, who themselves have no authority until they are recognized.

Now, Colonel, my advice to you is to get line as a representative with the people of this State, or get out, and you will then see things a little clearer than now seems to be possible. The delegation will meet at Chicago before it is "recognized as such by elected, before such recognition. If they do, possibly the Colonel, by the same process of reasoning by which he arrived at the conclusion that a resolution of the Democratic State convention, instructing him, is not binding, may conclude that no successor has been elected and that he holds over for four years more.

But the people now are not so much interested in knowing what the delegation from this State can lawfully do or will do, since they are satisfied it will be our pleasure, as it is our highest duty, to represent their wishes. What they want to know is whether Col. Prather is going to represent the Demo-cratic party or this State as a member of the National Committee or whether he is going to represent John G. Prather. They near so much so as a few weeks ago. Thes then wanted to know whether or not Col. Prather, with members of the committee from other silver States, were going to represent the people or would lend their influence to place the temporary organization of in the hands of an element repudiated by the people. But happily, owing to the act of the Democrats in other States, it is a matter of little concern what the National Com-mittee does. It is in the power of the National Committee to humiliate itself before the country, but its power to thwart the will of the people is gone. Col. Prather and other representatives from silver States may vote for a gold standard temporary

But to my great surprise, those who own three fourths of our city, and who are deriving rentals of \$5,000 to \$60,000, and in some cases a great deal more, are absent from the roll of honor.

To my mind it would be a good plan to appoint a committee, say two to each city block, all under the present general management, to speak to such page and the feeble minded.

The issues of to-day are not those of isse.

The party lines which then separated combatants have been obliterated. Multitudes of Republicans, however, have continued to march in the party procession from force of habit, quite unawake to the fact that men imbued with principles radically different from those which guided Lincoln are now leading the column, and that the band is playing an altogether different from

Sir Weiter's victory in the Brooklyn was a very reputer one. The borne has the reputation of being the gamest animal that ever looked through a bridle. He carned it honestly by tile way in which he has tried to win a big handicap during the past three years. Sir Waiter is just a trifle too good for medium class horses and not good enough for first-class ones. His gameness often landed him higher up than his speed justified, hence he was made carry big weight. This stopped him several times. Gradually the handicappers took weight off, and at last the little bay got enough off his back to win a Brooklyn. Everybody was glad because Sir Waiter has nearly been flayed alive in big handicaps around New York, and always ran game and true.

Clifford may have been beaten, but he proved himself the best horse in the country. He gave Sir Waiter 12 pounds, and should have beaten him. Clayton's ride was a bad one. Bramble's great son came too late.

Bill McGuigan, the "Arkansas Traveler,"

should have beaten him. Clayton's ride was a bad one. Bramble's great son came too late.

Bill McGuigan, the "Arkansas Traveler," got away with a nice thing when Monareith beat Ornament and Algol in the Kindergarten. William was a very lucky man, or, perhaps, he had the best rider on his colt. Sure it is that while Ornament was carroming from one horse to another at the stretch turn. Morrison held Monareith safely in the middle of the track. The race was not a true one. As far as Ornament was concerned, he was never in it, but Algol would have been in at the death had the favorite not pushed him all over the course. Typhoon also ran a good race, and Goshen surprised the talent.

Bing Binger should have won the third race yesterday, but Morrison waited toe long and Crevasse had Martin up.

Madeline's victory over Captive yesterday was strictly in line, but some of the form students forgot her race with Magnet last week. Lots of the wise boys played the filly to beat Pat Dunn's overrated nag.

Beau Ideal looks and acts bad. This horse is a much-abused animal. Naturally a great race horse, his training has been neglected and the handsome son of Jim Gore is now an easy mark for the poorest horses at the track. He was a great 2-year-old and if properly handled would be a greater 3-year-old.

Mike Dwyer will send Ben Eder to St.

John Rodegap, who owns Goshen, says

end street. This case is also pending in Judge Murphy's court, together with a couple of appeals from police court judgments.

That Coffey has avoided killing some one during his brief career of crime is a mystery to the police. He has a very violent temper and an several occasions has used a revolver in daring manner, but fortunately has never that any one. The police have only been keeping his record since July last, since which time he has been arrested a dozen times or more.

His friends and relatives intend to let him serve his Work house sentance, the first one he has ever done, and when he emerges will try to square the other cases against him and send him away to a farm conducted by an uncle in Iowa.

An idea of the influence of Coffey's friends may be gained from the fact that in all his lawlessness he has escaped having his photograph placed in the Rogues' Gallery.

FUNNY LEGAL FARCE.

Henry Bus' Protean Specialty Becomes Highly Entertaining.

John, alias Java Coffey, one of the most notorious local criminal characters with whom the police have had to deal for years, has at last been made to atone, in some measure, for one of the several hundred offenses with which he has been charged in the past two years.

Thursday he and his side partner, James Shields, were sentenced to serve one year each in the Work-house, on a plea of guilty of robbing J. L. Hautz of 107 Chestnut of his watch and \$20.

This punishment, when taken into comparison with the record of the notorious Java, is somewhat of a travesty. Chief Desmond thinks that if Java is only entitled to one year in the Workhouse, then every convict in the Missouri Penitentiary is worthy of being canonized.

Coffey is only 19 years old, according to his own story, yet he is a miniature edition of Sandow. He is the black sheep of a family of respectability and no little intelligence. The family, which consists of a widow and her four sons, live in the violinging of the four sons, live in the violinging of the potential of the notorious miscreant occupy positions of trust in different mercantile.

detlares for a tariff for revenue, limited to
the necessities of an economically administered Government, and opposes a third term
of the presidential office. The financial
plank is substantially as follows:

"We are for sound money—the soundest
that the world has ever had or can have.

"This sound money should consist of silver and gold, and of paper redeemable in
silver or gold, at the option of the payee,
the units of the whole mass to be kept at

CLAIMS STETSON'S ESTATE. Catherine Shirley Says Kate Stokes Stetson Was Her Mother.

KANSAS CITY, Mo., June 5.-Kansas City

KANSAS CITY, Mo., June 5.—Kansas City has produced a cialmant for the estate of the late Kate Stokes Stetson, whose recent death in Beston so soon after the death of her husband, the millionaire theatrical manager, was widely chronicled.

The contestant is Mrs. Catherine Shirley, who has lived here for a year, and whose husband, from whom she is separated, is a resident of Chicago. According to Mrs. Shirley's story, her mother was wooed ond won many years ago while she was still a circus rider, by Carl Anthony, a young circus performer from Germany, and that she is their child.

Mrs. Shirley was born at Quincy, Ill., nineteen years ago, and shortly after her birth was left by her mother with a Mrs. Snyder, who raised her. She was married while quite young, at Houston, Tex. From the time of her birth until her mother's death, Mrs. Shirley was supported by money sent her by her mother, but she saw her mother very seldom, and never saw the late Mr. Stetson knew nothing of her mother having had a child by a former husband.

Mrs. Shirley has employed counsel and taken steps to prosecute her claim in the Probate Court at Boston. She claims the estate as the sole heir of her mother.

Equestrian Statues Unveiled on Gettysburg Battlefield.

GETTYSBURG, Pa., June 5.-An immen crowd of veterans of the late war and others gathered on the battlefield here toothers gathered on the battlefield here today to witness the unveiling of the equestrian statues erected by the State of Penn.
sylvania in honor of the memory of Gens.
George G. Meade of Pennsylvania and Winfield S. Hancock. The ceremonies began
with the unveiling of the Meade Memorial,
at 10:30 a. m. This was performed by Master George Gordon Meade, a grandson of
the dead hero. A salute was fired by Light
Battery C, U. S. A., which came here from
Washington Barracks under command of
Capt. Lancaster. This was followed by the
dedicatory services conducted by George G.
Meade Post, No. 1, Pennsylvania G. A. R.
Gen. Gobin of Lebanon formally transferred
the memorial to Gov. Hastings, who received it on behalf of the State. An oration
by Gen. David McMurtric Gregg of Reading,
the famous commander of the Second Cavalry Division in the battle of Gettysburg,
concluded the Meade ceremonies.

At 2 o'clock this afternoon the Hancock
statue was unveiled. The ceremonies were
much the same as at the Meade unveiling
in the morning. The oration was delivered
by Gen. Henry H. Bingham, Congressman
from Philadelphia, who was on Gen. Hancock's staff at Gettysburg.

Among the distinguished men present
were: Maj.-Gen., Nelson A. Miles, Brig.Gen. John R. Brooke, Col. George Meade,
Lieux-Col. William Brooke Rawle, Maj. Edward Carpenter of Philadelphia, and Col.
Finley Anderson of New York, who was on
Gen. Hancock's staff. Gen. Daniel E. Sickles of New York, who commanded the Union
let on the battlefield here, was unable to
come.

The statues unveiled to-day were erected at the expense of the State and cost over 100,000. They are of heroic size and are about thirty feet from the ground at the highest point.

The night before she stayed at Naegell's Hotel, Hoboken. Shortly after her departure Emilie Mueller, chambermaid of the hotel, turned up the mattress of the bed and discovered beneath it a white skirt in which were wrapped jewelry and diamonds to the value of \$5,000. The girl promptly took the valuables down to the manager of the hotel, who sent a cablegram to await the arrival of the ship, apprising Mrs. Bartholomae of the valuable find. Mrs. Bartholomae cabled back yesterday orders that the chambermaid should receive \$200 as a reward for her honesty. The brewer's wife had forgotten her jeweis in the hurry of her departure.

say that Kentucky's support of Blackburn will not go beyond a complimentary ballot. They have reason to believe that Blackburn is favorable to Matthews and that the action of the Kentucky convention was in the nature of an additional rebuke to President Cleveland and Secretary Carliste.

Letters received at the Matthews bureau indicate that the contest at Chicago will be between Boles of Iowa and Matthews. If it should develop that these two men are the favorites the plan of the Matthews managers will be to argue that the party cannot afford to take the candidate that comes from a doubtful State. Indiana will be pledged to the Democrats in case it is agreed to nominate Matthews on a free silver platform. The friends of the Governor do not see how Iowa can come forward with convincing argument. That State, they say, is reliably Republican.

The Matthews delegates to Chicago from this State have nearly all been picked out, but their names will not be made public in advance of the district conferences in this city on the evening of June 23. It is reported that there has been a compromise in a few of the district; that is, the Governor has persuaded the free silver people to allow him to name a few Democrats of State prominence, who are inclined to favor sound money, but who are loyal to Matthews, and who will pledge themselves to vote for the kind of a platform favored by a majority of the delegates from this State.

It begins to look as if the old State tick-

by a majority of the delegates from this State.

It begins to look as if the old State ticket—the ticket of two years ago—will be renominated. Several of the men who were on the ticket have been hesitating about standing for election again, but the free silver leaders have about convinced them that with a free silver platform and Matthews the nominee of the Chicago Convention victory is as certain as political success ever was in Irdiana.

Thomas Taggart, Mayor of Indianapolis, ex-Chairman of the Democratic State Committee, Chairma; of the gold men's State Committee and Director-in-Chief of Democratic political campaigns in Indiana, said to-day: "There will be no split in the Democratic party in Indiana, no matter what the convention does. There may be a man here and there who will leave the party, but we shall all work in harmony in the coming campaign."

The drift of the sliver sentiment in Inshall all work in harmony in the coming campaign."

The drift of the sliver sentiment in Indiana is shown by the position taken by the Indiana Prohibitionists who will cast their iot with the new National party born of the rump convention at Pittsburg. Official announcement of this will be made by their State official organ this week. So strong is their belief in the necessity of legislation in favor of sliver that they will make their pet scheme, prohibition, secondary to sliver interests.

MICHIGAN CITY, Ind., June 5.—Judge E.

D. Crumpacker of Valparaiso, who was nominated yesterday for Congressman by the Tenth District Republicans won that place by the narrowest margin in the history of politics.

Judge Crumpacker's majority over J.
Frank Hanley of Williamsport, the present the constant was in doubt up to the time the very last one hundredth of a voic cast by White County was counted.

A painful hush fell over the convention hall when the ballot box was closed out and breathless excitement held sway for several minutes while Chairman Gillette of the Valparaiso counted the ballots. He finally announced that Judge Crumpacker had recived a majority of 52-100 of voce, and decided a majority of 52-100 of voce, and decided him to be the nominee of the convention.

The vote stood 122.76 for Crumpacker and 122.24 for Hanley.

This convention ended a bitter contest, that was brought about by a gerrymander combining a portion of the old Ninth D. strict with the new Tenth. It was a fight for supremacy between the factions that had before represented counties in distinct districts. Therefore, local pride was largely at stake, and the Crumpacker forces went will when Chairman Gillette announced the result.

Harrity, Chairman of the National Democratic Committee, will have to walk the plank when the party meets at Chicago. The silver men will be in control and will want a man of the prevailing faith to guide the campaign. In this connection Senator James K. Jones is most frequently mentioned. He is recognized as an able organizer and an enthusiastic silver advocate. The further opinion is expressed that the head-quarters will be located West, to be removed from the antagonism of Eastern gold influences and to be convenient to the States in which the hard contests will be fought. St. Louis and Chicago are foremost in line of consideration.

AUSTIN CORBIN DRAD

Carriage and Fatally Injured.

NEWPORT, N. H., June & Hon. Austin Corbin of New York, the millionaire and prominent railroad operator, was thrown from his carriage near here yesterday afternoon and so badly injured that death ensued at 3:42 o'clock last night.

Mr. Corbin and his grandson, Corbin Edgell, with the latter's tutor. Dr. Kunger, left the Corbin house for a fishing trip to Cornish Mountain. The team was in charge of John Stokes, Mr. Corbin's coachman for years. The horses became unmanageable and ran down the descending driveway at terrific speed.

At the turn into the main road all of the occupants of the carriage were thrown violently out. Dr. Kunger was thrown completely over the wall, and landed on the plowed ground. He received a severe bruise and a fracture. Young Edgell suffered a fracture of the leg and wrist. Both were removed to the Edgell place, half a mile distant. Stokes evidently struck a tree and died about 6 o'clock.

Mr. Corbin struck a stone wall with frightfull force, and was terribly cut and bruised about his head, and one of his legs was broken and crushed so that the bones protryded through the flesh. He was able to speak when Mr. Woodbury, his farmer, who was near by, reached him, but he soon lost consciousness and remained in that condition most of the time until he breathed his last. There were present at his bedside Mrs. Corbin and his daughters, Miss Anna and Mrs. Edgell of New York, all of whom witnessed the accident from the house.

WILL USE THE COMMITTEE.

Col Swerds Laughs at the Fears of the Ohie Man's Friends, but They Are Uneasy.

Col. Perry S. Heath, the ex-journalist of Ohio, who has opened McKinley headquarters, or rather a literary bureau, at the Southern, thinks he has discovered the latest scheme in the desperate game of the anti-McKinley combine to defeat the Canton

Major.

According to information which Mr. Heath considers reliable, the Machiavellan Thos. C. Platt of New York has sent out invitations to all of the anti-McKinley members of the National Committee to meet him in St. Louis Monday for the purpose of adopting a plan of action to be pursued at the full and formal meeting of the committee Wednes-

As is well known, the National Committe

As is well known, the National Committee is to meet at the Southern Hotel at noon Wednesday to begin the work of making up the temporary roll of the convention, which exambles the following Tuesday.

Even since the opposition to Major McKinley has realized that the Ohloan's boom could not be checked by the ordinary methods, it has boldly asserted its intention to use the advantage given it in the control of the National Committee to defeat McKinley, if possible, by recognizing all the anti-McKinley contesting delegates who could show the slightest claim, and giving them the seats in the convention with the expectation that they would force men of their own selection on the Credentials Committee, and thus secure a firm footing in the permanent organization of the convention.

Desperate as this game appears, Mr. Heath says that under the lash of Boss Platt it is going to be undertaken.

He says that under the lash of Boss Platt it is going to be undertaken.

He says that Platt has given out the information publicly that he will not be in St. Louis until next Wednesday, when all the other big-wigs are expected here, but that privately he has notified all those members of the committee who are supposed to be opposed to McKinley that he will be here Menday morning and "would like to meet them in private conference for the discussion of business of very vital importance to the party."

One of the committeemen thus written to has communicated with Mr. Heath and given Boss Platt's little game away.

Mr. Heath doesn't know exactly who of the committeemen are now so set against McKinley that they can be used by Platt for the purpose in view, unless it be Clarkson, Manley and certain members from New England, with Wright Cuney of Texas and A. H. Leonard of Louisiana, who is under the influence of Pitt Kellog. Mr. Platt himself is not a member of the committee, though it is supposed he can get the proxy of the New York member, W. A. Butherland, whenever he wants it.

When Col. Swords, the sergeant-at-arms of the National Committee, who is also at the Southern, was told of Col. Heath's discovery, he laughed sarcastically and characterized it as ridiculously absurd.

"Somebody has got excited," declared Col. Swords, "and is misleading Mr. Heath. I have received a letter from Mr. Manley saying that be could not get here before Tuesday night. So that disposes of Mr. Manley as one of the arch-conspirator. As to Gen. At the club meeting Thursday night steps were taken to have the club decorated in appropriate style, also to have an orchestra to render music continuously during the convention.

The marching corps of the club, 500 strong, is getting its uniforms ready and having frequent drills. The marchers will wear dark blue trousers with a red stripe, blue blouse and a Filley hat; the members will carry canes. The Reception Committee will begin their work the Sunday before the convention. The committee is headed by Frank M. Sterrett, Judge Daniel D. Fisher, Capt. Issac M. Mason, Wm. M. Kinsey, George D. Reynolds and John B. Paschall.

The conduit work is going ahead, so is the ventilating contract and the interior is ready for painting and frescoing. The architectural force has been called off the work to superintend emergency repairs to public buildings occasioned by the tornade and to make plans for the City Hospital at Seventeenth and Pine streets, which it is now clear the city will secure for one or two years.

United States citizens, or whether any demand had been made for their release.

The Senator said that while the case was one of great gravity, yet no information was available except through press reports and rumors. The Executive branch had not given the slightest information on the subject.

Mr. Morgan read the statutes requiring the President to make & demand for the release of the Americans. He argued that it was the duty of the President under the Constitution to keep Congress advised on the state of the Union, and in particular on foreign affairs. Of late a courteous custom had arisen to adopt resolutions making requests on the President for information, but this did not relieve the President from the duty of giving it.

Some question was raised by Mr. Sherman as to the propriety of Mr. Morgan's making public use of the testimony of Mr. Lawrence before the Committee on Foreign Relations.

The Alabama Senator sharply rejoined that the Committee on Foreign Relations.

The Alabama Senator sharply rejoined that the case was big as a small-sized head of cabbage pinned to his coat:

In somber black, and had a bunch of cabbage pinned to his coat:

In shigh relief to his sable out two displayed on the laple of his coat.

In answer to an avalanche of questions Mr. Snyder explained that he was in political mourning. He sat down at the writing desk and penned the following to reassure his friends:

"I am wearing the bodge of mourning with my friend, Col. C. G. Gonter, who is sick at heart over the sad news from Kentucky, where on yesterday they laid to rest the king and queen of the gold bugs, Grover Cleveland and Johnny Carlisie. May they rest is peace, and may their like never be seen again. They have left behind them for the masses the farmer boy, Dick Bland, and free silver at 16 to 1 for all who follow and free silver at 18 to 1 for all who follow they will be a supply seen to the proper selection of the silver at 18 to 1 for all who

President has paid no more attention to the subject than if it had been the slaughter of some poor negro or mulatto in the Cuban army."

Mr. Mills reminded Mr. Morgan that the Lawrence testimony had shown that the American on trial at Havana had not understood any of the proceedings, which were conducted in Spanish. "Yes," Mr. Morgan continued, "that testimony of Mr. Lawrence shows that the entire trial was in the Spanish language. When the American prisoner was told to stand up, he said: 'I do not understand what you have been saying. How am I to answer you?' A brief explanation was made. Then the sentence of death was pronounced on that American citisen."

The Senator said occasional groans and shrieks were heard from the stricken country, telling us of the terrible butchery going on there; but so far as authentic and official information was concerned, it was withheld. He had received several letters from Cuba, some with seals broken, detailing the conditions prevalent three. Before the Senate adjourned it should know from the President whether American citizens are to meet death without a demand.

Mr. Morgan said he had great respect for the office of President. It was an American, characteristic to be pround of the Government, but this was a Government of law, not of provisional will. The President was enjoined to execute the laws, he swore in his official cath to obey them. The Senate had requested information of the President, and he had replied that it was incompatible with the public interest, although sec. 2001 of the Statutes provided when a demand was made for the release of an American, "that all the facts relative thereto, as soon as practicable, be communicated by the President to Congress."

The Senator declared that every day of the confinement of American prisoners at Havana was a day of dishonor. He did not know what would come of the delay and inaction. Possibly in the end the Americans would be so humbled as to sue Spain for pardon. But Congress, which was the sole war power should not leav

Kansas Wants No Tight Rope Per-

fermer for President.

To the Editor of The Post-Dispatch.
TOPEKA, Kan., June 5.—The intensity of the struggle in Kansas to give expression to

the real voice of the people cast the ques-tion of candidates into the background. The delegation is absolutely uncommitted as to

candidates. Bland is highly esteemed and respected by all. Boies is also regarded with favor. No other candidate has, to my

knowledge, elicited expression. Kansas wants for President neither an

eleventh hour convert nor a political silver tight rope performer. She wants a man

whose record is a guaranty of his unswerving fidelity to the cause of silver restoration.

DAVID OVERMEYER. STORM IN KANSAS. Rain and Hail Do Much Damage to Crops Near Abilene.

ABELENE, Kan., June 5 .- Another flood visited this city last night. Rain fell to

the depth of 5% inches, and water from the hills inundated the lower parts of town. The storm was accompanied by heavy hail, doing much damage to crops in the southern part of the county. The rain was general all over the county, and the heaviest in years. All trains were delayed.

Mayor Walbridge, who is to umpire the game, may have thought that he was treading on thorns for the past week, but by the time he gets through with that game he will most likely conclude that his pathway has been paved with barbed wires, prongs upward.

President Nagel of the Council is to be the official scorer and he and the Mayor are both trying to borrow wire masks and breast pads for the event. The Mayor will not wear his gold-rimmed glasses.

Chief Dispensary Surgeon Jordan has been notified that he and at least four of his most adept bone and gash repairers must be on hand, and Chief Clerk Mike Dwyer will take three ambulances out to the park to cart back the disabled members. There are twenty-eight members of the House and it is calculated that all of them will be needed before the game is finished. The even wards will probably start in with this array of tossers: Jim Cronin, the First Ward heavy weight, first base; Judy, the wiry statesum from the Second, behind the bat; Wilcox, welter weight from the Twenty-eighth, pitcher; George Grassmuck, the supple, sinewed athlete from the Fourth, short stop; Pauley of the Twenty-eighth, all around shipper, third base; and for the field, Dehlendorf of the Sixteenth, Sullivan of the Twenty-Fourth and Schumacher of the Sixth. Speaker Kelly of the Twenty-sixth will ceach the "Evens."

HAY.

Received, 725 tons; shipped, 153 tons. Steady, but rather inclined toward dullness. While there is really no surplus-of either choice timothy or prairie on the market, the trading is only on the hand-to-mouth order. Low grades of all kinds, however, are plentiful, and sales are consummated almost entirely in buyers' favor, as there was no shipping demand to relieve the situation. Clover in light request. Straw steady, but choice in fair demand.

He accepted his dismissal gayly, and Katherine went back to her seat, cooling her scarlet cheeks against her paims.

Presently another young man rode into view on the dusty highway, but no admiration brightened Katherine's eyes this time, no racing color warmed her oheeks. No smiles of nattering welcome for him.

"Good evening, John."

"Mr. Devereaux's."

"Is Marie at home?"

"Gertainly, why should Mr. Devereaux call if she—"

"He could come to see you, I suppose."

the spark of jealousy in his heart flaming up, "Me," she cried sconfully, then fell back and laughed. "Why, den't you know he used to call Marie his sweetheart?"

Prosper Devereaux devoted himself to Ratherine, while John Barnard hung aloo, from Marie also, a veing jealously at every man who approact it was a wretch the moment they into their own rodown at Marie's lap, tear forever.

KANSAS CLOUDBURST.

The Inhabitants of Gypsum City Forced to Desert It.

SALINA, Kan., June 5.-Gypsum City, small town seventeen miles southeast of here, was visited by a cloudburst about mid-night last night. The town was flooded and people were compelled to fice from their homes. Water was running through the main street two feet deep to-day. Farms along Gysum Creek for miles are covered with from four to ten feet of water, and with from four to ten feet of water, and the farmers are leaving their houses in boats.

At Brookville, eighteen miles west, the water is nearly as bad. John Curtis, his wife and their three children and the family of a rallroad man by the name of Shiek barely escaped drowning.

The Smoky Hill River is rapidly rising and an inundation is greatly feared in this city.

and an inducate, in Ellsworth County, a re-city.

At Ellsworth, in Ellsworth County, a re-etition of last year's flood, when great dan age was done, is feared. Reports from the country are very meager. Howard Foraker Arrested.

Howard Foraker was arrested at Kirk-wood on complaint of his wife, Cora For-aker. She charges that her husband beat her and misused her. He was committed to the county fall. On Trial for Murder.

DICINAL MISCIT DANION:

The Michael has had a troutous thin the bill, and after almost turning itself in a riotous mob passed it in its simplest form, but with rot a vote to spare. The Houses bill contains an emergency clause, providing that the recipients of the bounty shall render whatever reasonable service they can in return for the money received by them. The method of distributing it among the city departments has not entered into the House's consideration at all.

At the tempestuous special session of the House. Wednesday noon, violent opposition to the bill in any form was developed among a small coterie of members, and others who voted for it are known to be so week-kneed that they are anxious for some loop-hole to come out fiatly and vote against it.

THE PRICE OF CICARS.

It Will Be Increased by a New Spanish Export Duty.

R. Rice Mercantile Cigar Co., has re-ceived private advices from Cuba that on July 1 the export duty on Cuban-made cigars will be materially advanced.

Mr. Schutz' advices are in the shape of
two letters from reliable correspondents
there who state that the Spanish authorities
in Cuba find that they must make the advance in order to recoup the loss of revenue
incident to the prohibition of the export
of leaf tobacco, which went into effect some
weeks ago.

of leaf tobacco, which went into effect some weeks ago.

The present export duty on Cuban cigars collected at the shipping port is \$1.35 per 1.000. At the time the letters were written the exact amount of the advance had not been decided on, but the figure, it was stated, while be either \$1 or \$4.

Air. Schutz's advices are also to the effect that the next crop of Cuban tobacco will be next to nothing. The authorities have list stated, issued orders positively interdicting the planting and cultivation of tobacco in those districts not occupied by the insurgents. In the insurgent districts the same condition will prevail, and the same condition of tobacco in the war-torn island is apt to be shorter than ever before known.

The \$100,000 appropriation from the City Treasury for the relief of tornado sufferers, that has proved such a bug-bear to the astute city legislators, is at last assuming a tangible shape, and the legal technicalities have about all been swept aside. The appropriation, however, will be far from a gift to the storm's victims, and the beneficiaries will have to render value received for whatever they get, so far as they are able.

At Thursday's special meeting of the Council Ways and Means Committee it unanimously reported that the fund should be distributed among the several city departments, which are to expend it in repairing the damage done to public property by the storm, and the heads of departments are to discriminate in the selection of employes, giving the advantage to storm sufferers on the work. he work. the bill becomes a law in any shape it will not be effective until the latter part of next week.

The most important measure introduced at the meeting of the City Council Thursday evening was a bill by Mr. Heckel empowering the Board of Public Improvements to advertise for bids for a device to purify and clarify the city water supply. The successful owner of such a device is to have a contract for twenty-five years and the contrivance is to be in operation within one year from the time of letting the contract.

The contract must be let to the lowest responsible bidder, and shall provide that the water must be treated for three gronths before any payment shall be made, at the end of which time, if the results obtained by the contractor are satisfactory, payment is to be made for three months and continued during the life of the contract. The results of the three months' trial shall be determined by a commission of three experts, one to be appointed by the Mayor, one by the contractor and one by the other two. The commission shall be empowered to employ engineers, electricians, chemists and other skilled persons to assist it, the cost being paid jointly by the city and by the contractor. If the results be unsatisfactory, no payment shall be made, and the contractor shall remove his material.

PRIGHTENED TO DEATH.

Miss Riley's Burns Prove Fatal Because of the Tornado.

Miss May Clotilda Riley, who was so badly urned a month ago at her home, 1501 South Grand avenue, died Thursday. Miss Riley's death was indirectly the re

sult of the tornado. Miss Riley received her injuries accident which came near proving fatal to three other members of the family.

A saucer of gasoline which she carried in her hand was ignited by the flame of a gas stove. Her clothes caught fire and her father, mother and sister were severely burned in trying to save her life. She was horribly burned about the upper part of the body. Drs. A. C. Bernays,

in regular attenuance upon the lady.

There were hopes of her recovery when the fright caused by the tornado, caused a shock to her weakened system from which she never recovered.

The wind broke all the windows in a room adjoining that in which she lay. She was frightened almost into hysterics, and from that time she grew weaker.

Miss Riley was highly accomplished and a great favorite among her acquaintances.
